

PROPERTY INFORMATION

TERMINOLOGY

Model terms:

PARK= the Park model series

VTI= the "Value Through Innovation" Cambridge Series

MED= the Medallion singlewide line

TRAD= the Traditional Sectional series

DBLE= Double wide

SGLE= Singlewide

PEM= The Pembroke Modular series

MODS= The Diamond Crest, Uptown, Cape Cod, Santa Rose series

SCM= Self Contained Modular

BM= Basement Modular

SE= Split entry Modular

Order Processing terms:

Order request the forms used to order product

Hardcard/confirmation the typed copy of original order request

PCO= Product change order requests, the form used to make changes to original order

Quote form= the form used to get pricing on customized homes

W/A= will advise

N/C= no charge

N/A= not available

INCL= included in the price

SqFt= square footage

Lft= linear footage (the longest length)

Std= standard

Lr= living room

FR= family room

MBR= master bedroom

Drr= dining room

ENS= ensuite

Kit= kitchen

A/C= air conditioner

A.P.D= as per diagram

F.F.T= frost free tap

H.W.T.= hot water tank

I.L.O.= in lieu of

O/C= on center

R= reversing the plan side to side

F= flipping the plan end to end

SP= special

T/O= throughout

FS= factory select

CONV= convertible

Triple M Housing Ltd.

PRODUCT ORDERING SYSTEM

As a Triple M Retailer you will be provided with "Order Request" forms. These are the only forms that will be accepted as a "contract" between Triple M and you to build your stock and or retail sold homes. We provide you with three types of "Order Request" forms: one each of modular product, singlewide product and doublewide product.

The "Order Request" must be accompanied by the appropriate diagram and all options, décor colors and any structural changes must be completed in full for the order request to be considered received by Triple M and ready for scheduling.

On the order request form, the Retailer/sales rep. that orders the house must sign on the appropriate space on the form. This is your authorization to schedule and build the house. Once the order request is typed, it is faxed to you. It is your responsibility to ensure that either Triple M or yourself have not omitted anything off the original order request. The order will be built to the faxed confirmation of the Order request once you have confirmed by signature that the home is correct. However, if we have not received a signed confirmation back within 2 working days, Triple M considers the order accepted and will build the home as is. Any changes that are needed to enhance or correct the original order must be sent in on the P.C.O. form.

On all orders going to BC that require transport permits, you must submit the legal street address and location the house is going to in order for us to apply for the transport permits. Also, please supply the snow and rain loads for the area the house will be shipped to, as the variance in snow loads is extreme in the BC area.

Please fax all order requests directly to the sales department at:
(403) 320-9004

October 1, 2001

Triple M Housing Ltd.

ORDER IDENTIFICATION PROCESS

When a firm order is received an ID or Order number is assigned. You will be notified of this number by fax . This number has only one purpose and that is to enable us to locate the order and give you an update of where it is, when it will start into production, etc. It has no relevance to start dates or where it is on the schedule.

When a home physically begins construction and starts down the line it is assigned a Serial number. This way each home, coming off line will have sequential Serial numbers.

When you receive your Weekly Update Report it will show the Order number for the orders we have received the previous week. When the home actually starts, the update report will show both the Order number and Serial number so that you have a cross-reference. Homes that are in the yard and ready to ship will also show both the Order and Serial numbers. The weekly report will be faxed to your office every Monday, except long weekends: the report will arrive on Tuesdays.

When you receive your report, please use this opportunity to ensure that all information is correct. This is also a good time to inform us of any homes you will be picking up.

OCTOBER 1, 2001

Triple M Housing Ltd.

PRODUCTION CHANGE ORDER REQUEST (P.C.O.) POLICY

The purpose of the P.C.O. is to give both you and Triple M the ability to track any changes to the "Order Request" after the original has been processed. All P.C.O.'s must be received in writing on the current Product Change Order Request Form. All additions and deletions must be written in the appropriate column. A diagram must accompany any change requests that are locating specifics, such as additional phone jacks.

Prior to ten working days before the on line date of the home, P.C.O.'s will be processed, and the approved requested changes made.

Within ten working days of the on-line date, P.C.O.'s will be subject to approval by Triple M Housing.

After the on-line date, P.C.O.'s will not normally be accepted. Only under extreme circumstances will a P.C.O. be considered at this point.

Implementation of this policy is designed to assist the retailer to better service his customers by reducing the number of unnecessary changes; and the equivalent number of errors.

October 1, 2001

Triple M Housing Ltd.

PRODUCT QUOTATION / **ESTIMATE REQUESTS**

You, as a Triple M Retailer/ Sales representative will be supplied with Product Quotation / Estimate Forms. This form must be used for all inquiries concerning the structural changing of any of our current floor plans and all custom homes. A diagram and detailed listing of any specialty items for quote must be provided.

Please fax your quote request directly to the sales department at:
(403) 320-9004. Any queries as to the status of a quote, or appeals for quote completion must be communicated through the sales department.

All quote/estimates are to Triple M standard specifications only. Options will not be included in the quote price. Quotes are firm for a 30 day period, commencing on the date of Triple M response. This allows for any incremental factory cost increases to be included.

Implementation of this policy is designed to assist the Retailer/ Sales rep. To better service his/her customers.

**NOTE: COST ESTIMATING IS ONLY AS ACCURATE AS THE
INFORMATION ACCOMPANYING THE REQUEST.**

October 1, 2001

Triple M Housing Ltd.

ENGINEERING CHARGES PERTAINING TO QUOTES

Before a quote can be submitted to the factory it must be signed by the Dealer or in the case of a multi-lot operation the manager of the sales center. The signature means:

- a) The Dealer has reviewed the quote and is satisfied that the Sales Rep has supplied all pertinent information on correct forms in a professional manner. Some examples of required information would be snow load, door and window location, accurate dimensions, location of fridge, stove, furnace, hot water tank, electrical panel. Needless to say all of the above must be done in a clear and legible manner.
- b) Triple M is authorized to invoice the dealership for any charges that may occur as laid down in this policy.

Triple M will not charge a dealership for a quote under the following conditions:

- 1) The quote is received in an acceptable condition (as outlined above)
- 2) The drawing is clear enough that Triple M can determine whether or not it can be built without having to draw the home for costing or engineering purposes.

SINGLE FAMILY DWELLINGS (S.F.D.)

If the home has to be drawn, Triple M will institute a charge. In this event the Triple M Sales Department will phone the Sales Rep, advise him that a *quote drawing* needs to be done and obtain permission to do so. If permission is granted Triple M will draw the home and invoice the dealership \$250.00. If the quote becomes a firm order then Triple M will credit the \$250.00 charge when the house is invoiced. When the house is ordered a *proposal drawing* based on the original quote drawing will be sent. Any changes to the first proposal drawing unless significant, will not be charged for. If, however, the second proposal drawing is returned for additional changes, a \$75.00 per hour charge will be instituted, with a minimum charge of \$75.00. This charge also applies in the event that the dealership does not give proper information and the factory personnel must make calls to dealerships, local building authorities, etc.

COMMERCIAL PROJECTS

As a general rule commercial projects are not the type of business that results in profits for Triple M or a dealership as they are rather time consuming. Nevertheless, it is not our desire to pass up a good opportunity. We encourage dealerships to send in commercial opportunities for a quote as outlined above in S.F.D. We will be able to tell whether or not it is within our scope and advise you of the same. In the event that it is decided to proceed, a minimum charge of \$150.00 along with a \$75.00 per hour fee for any other time will be charged to the dealership.

MULTI-FAMILY DWELLINGS (M.F.D.)

Charges apply the same as outlined in Commercial Projects above.

Note: The more complete the information and the quality of the drawing will result in a quicker response to your quote request.

Triple M Housing Ltd.

Retail Co-op Advertising Policy

Triple M Housing acknowledges the need and value of locally produced advertising as a way of generating interest and ultimately sales. As independent Business people you know your market better than anyone, and where your advertising dollars would be best spent. Triple M Housing believes that certain types of event specific advertising may qualify for shared co-op dollars. In order to apply for co-op advertising the following conditions or guidelines must be met before we can help.

Triple M Housing will support certain types of advertising during the year if the special nature of the event and its value can be established.

Co-op advertising request forms should be submitted at least 30 days prior to any event/promotion. Approval is in principal only and is subject to review of the actual advertising material. Prior to releasing any advertising, the proofs of all layouts and text (video/audio tapes) to be used in the promotion must be submitted to Triple M. This is needed before final approval can be given.

Copies of all invoices with the approved co-op-advertising request need to be received by Triple M Housing before any Retailer reimbursement can be made.

Triple M Housing believes maintenance advertising to be solely the responsibility of the local Retailer. (Yellow Pages, Classified Ads are examples of maintenance advertising)

Triple M Housing reserves the right to terminate any agreement if the above mentioned conditions are not met.

October 1, 2001

Triple M Housing Ltd.

CONTRACT HAULERS

The Triple M Housing Ltd. Checkout and Dealer Acceptance procedure must be followed to ensure the protection of the contract hauler, the Dealer and the Manufacturer. It is imperative that the hauler personally checks out each home before it is picked up. They must do a walk through of the unit before completing and signing the shipping inspection record form.

All items should be checked by the hauler, noting deficiencies in the area supplied on the form. This form should ensure a clean home with no unrecorded shortages. A copy of the signed shipping check off list must be left at Triple M homes before the home leaves our property.

When delivering the home to the dealer lot, the dealer should accompany the hauler on another walk through of the unit.

Please remind all haulers that they are responsible to ensure the home arrives clean and undamaged.

Remember, once your trucker accepts the home and verifies (on the shipping check off sheet) that all items are in place and correct, you / they are responsible for the unit.

Once the home arrives it is the dealer's responsibility to complete either the "Lot inventory check list" or the "Pre Delivery Inspection"; (whichever is appropriate). Procedure for handling of these forms is outlined in your warranty / service manual.
